## Danimer Scientific

### Anthem Blue Cross and Blue Dental Complete

#### WELCOME TO YOUR DENTAL PLAN!

This benefit summary outlines how your dental plan works and provides you with a quick reference of your dental plan benefits. For complete coverage details, please refer to your certificate of coverage.

#### Dental coverage you can count on

Your Anthem Blue Cross and Blue Shield (Anthem) dental plan lets you visit any licensed dentist or specialist you want – with costs that are normally lower when you choose a participating provider.

#### Savings beyond your dental plan benefits – you get more for your money.

You pay our negotiated rate for covered services from participating dentists even if you exceed your annual benefit maximum.

This is not a contract; it is a partial listing of benefits and services. All covered services are subject to the conditions, limitations, exclusions, terms and provisions of your certificate of coverage. In the event of a discrepancy between the information in this summary and the certificate of coverage, the certificate will prevail.

\*Child orthodontic coverage begins at age eight and runs through age 18. This means that the child must have been banded between the ages of eight and 19 in order to receive coverage. If children are dependents until age 19, they can continue to receive coverage, but they must have been banded before age 19.

### Emergency dental treatment for the international traveler

As an Anthem dental member, you and your eligible, covered dependents automatically have access to the International Emergency Dental Program. \*\*With this program, you may receive emergency dental care from our listing of credentialed dentists while traveling or working nearly anywhere in the world.

\*\* The International Emergency Dental Program is managed by an independent company offering dental-management services to Anthem. To learn more about the program, please visit the International Emergency Dental Web site at [www.decare.com/internationalDentalProgram.do](http://www.decare.com/internationalDentalProgram.do).

### Promoting healthy mouths for members who are pregnant or living with diabetes

If you are pregnant or living with diabetes, you can sign up to receive one additional dental cleaning or periodontal maintenance procedure per year.

### Choice of dentists

While your dental plan lets you choose any dentist, you may end up paying more for a service if you visit an nonparticipating dentist.

### Here's why:

Participating dentists have agreed to payment rates for various services and cannot charge you more. On the other hand, nonparticipating dentists don't have a contract with us and are able to bill you for the difference between the total amount we allow to be paid for a service – called the “maximum allowed cost” – and the amount they usually charge for a service. When they bill you for this difference, it's called “balance billing.”

### How Anthem dental decides on maximum allowed costs

For services from a nonparticipating dentist, the maximum allowed cost is determined in one of the following ways:

- Nonparticipating dental fee schedule/rate developed by Anthem, which may be updated based on such things as reimbursement amounts accepted by dentists contracted with our dental plans, or other industry cost and usage data
- Information provided by a third-party vendor that shows comparable costs for dental services
- Participating dentist fee schedule

### Here's an example of higher costs for nonparticipating dental services

This is an example only. Your experience may be different, depending on your insurance plan, the services you receive and the dentist who provides the services.

Say Ted's dental plan allows him 50% coinsurance for either participating or nonparticipating dental services... Ted chooses to get a crown from a nonparticipating dentist who charges \$1,200 for the service and bills Anthem for that amount. If Anthem's maximum allowed cost for this dental service is \$800, this means there will be a \$400 difference. The nonparticipating dentist can “balance bill” Ted for that amount.

Ted will also need to pay \$400 coinsurance. Therefore, the total he will pay the nonparticipating dentist is \$800. Here's the math:

- Dentist's charge: \$1,200
- Anthem's maximum allowed cost: \$800
- Anthem pays 50%: \$400
- Ted pays 50% (coinsurance): **\$400**
- Balance Ted owes the provider:  $\$1,200 - \$800 = \$400$
- Ted's total cost: **\$400** coinsurance + **\$400** provider balance = **\$800**

In the example, if Ted had gone to a participating dentist, his cost would be only \$400 for the coinsurance because he would not have been “balance billed” the \$400 difference.
